ORDER BY Challenges

1

First Challenge

Challenge:

Write a query that returns all employees ordered alphabetically by their last name from A to Z.

2

Second Challenge

Challenge:

Write a query that returns all employees ordered by salary from highest to lowest.

3

Third Challenge

Challenge:

Write a query to return all employees ordered by most recently hired to longest serving.

4

Fourth Challenge

Challenge:

Write a query to return all employees ordered by `department_id` in ascending order and within each `department_id,` order by `salary` from highest to lowest.

5

Fifth Challenge

Challenge:

Write a query to return the `employee_id, first_name, last_name` and `salary` for the top 10 employees who get paid the most.

6

Sixth Challenge

Challenge:

Write a query to return the employee_id, first_name, last_name and salary for the employee *or employees* who get paid the least.
