Pattern Matching Challenges

1

First Challenge

Challenge:

Select countries from the `hcm.countries` table which start with the letter 'N'.

2

Second Challenge

Challenge:

Select customers from the `oes.customers` table who have a Gmail email address.

Third Challenge

Challenge:

Select product names from the `oes.products` table which contain the word 'mouse' anywhere within the product name.

Fourth Challenge

Challenge:

Select all product names from the `oes.products` table which end in a number.
